Tue, 07 Feb 2013 07:45:42 +0000No.333255: "Drive Switches!!"

It's been a while since we posted something! Since this was originally in the review section, I figured I'd put it here.

A secret movie of a certain commercial started making the rounds on the Internet last year. It appears to be an early demo for an upcoming console game. In it, there's a minigame seemingly similar to the recent *Megami Tensei* NSMB spinoff, but with a drive switch system (pictured right)!

Given that the first person shooting and the need to "hit" the switches are very similar to what we've seen before, I'm leaning toward it being a concept video for *Drive Connection 4* or something like that.

The archives are very sparse. Probably the standard demise of a small site growing organically. Ah well.

I have no news. Nothing interesting enough even to mention.

This service will be suspended next week for a refocus.

I'd like to note that even if this is the last post
